Through: SECRETARY JOSE RUPERTO MARTIN M. ANDANAR
Presidential Communications Operations Office

Dear Mr. President:

It is my honor and privilege to present to you the Annual Report of the People's Television Network, Inc. for the year 2020.

It has been an arduous task for all of us to balance the need to deliver news and information to the Filipinos and ensure the health, safety, and well-being of our employees. Though grueling, it was fulfilling nevertheless as we believe we were able to tackle all challenges that came our way.

While there is a pandemic in our midst, we expect these trials to linger. But with your support, we know we can move the Network to even greater heights, the results of which may be felt even beyond our terms of office.

We sincerely thank you for your unstinting support for the government television network.

Very truly yours,

MA. FE ALIÑO
Chairperson, Board of Directors

25 June 2021

Dear Chairperson Dagpin:

It is my honor to present to you the Annual Report of the People's Television Network, Inc. for the year 2020.

It has been an arduous task for all of us to balance the need to deliver news and information to the Filipinos and ensure the health, safety and well-being of our employees. Though grueling, it was fulfilling nevertheless as we did our best to tackle the challenges that came our way.

Thank you very much.

Very truly yours,

MA FE ALIÑO
Chairperson, Board of Directors

MESSAGE FROM THE NETWORK GENERAL MANAGER & COO

What a year 2020 was!

Though the challenges were unprecedented, we were able to pull through with flying colors. I had the honor to be appointed by the President to fill the last seat of the 5-member Board of Directors. I was designated Network General Manager & COO at the height of the Enhanced Community Quarantine (ECQ). To say that it was tough is an understatement. I had the difficult task of getting to know the officers and staff of the Network and navigating through its operations virtually at most times.

Though our hearts broken with every positive result received after a swab test and more so with news of the passing of a co-employee, we had to soldier on.

We worked under the most peculiar of circumstances. We are proud of Public Briefing #LagingHandaPH, newscasts and public affairs programs and Rise and Shine Pilipinas, among others. Despite the pandemic, we were able to launch television shows that the country needed. These served as the citizens' go-to for unadulterated and timely news and public information straight from the sources. Because we stayed true to our principles and values and avoided editorializing and sensationalism, I believe the Network deflected panic and chaos and became the face and voice of calm and logic.

I thank President Rodrigo Roa Duterte, PCOO Secretary Jose Ruperto Martin M. Andanar and the Board of Directors, for their untiring support for PTV. Rest assured of our continued commitment to fulfill our mandate as the government television network.

Finally, my most heartfelt gratitude to the men and women of PTV without whose efforts this Annual Report would not come to be. This is a written testament of our humble efforts to serve the Filipino people through television broadcast and social media.

Together, let us strive to excel in the new normal.

KATHERINE CHLOE S. DE CASTRO
Network General Manager & COO

Year 2020 literally started with a bang with the unexpected eruption of one of the smallest yet most active volcanoes in the world – Taal. Government quickly responded by providing assistance to communities that have been directly and indirectly affected by the catastrophe; and PTV was there every step of the way through the delivery of timely news on the disaster and recovery efforts to the public.

(L) File-photo of Taal Volcano and (R) an aerial view after its eruption in January 2020. Source: File-photo, PTV News and “Aerial inspection sa Taal Volcano, isiniwalat ang pinsala ng Bulkang Taal”. *YouTube*, uploaded by PTV. 21 January 2020. <https://youtu.be/5ozg3MBxpKs>

Still reeling from the Taal Volcano disaster, the country had to face what could be the world’s toughest challenge in modern times. The unseen enemy suddenly shut down robust economies and caused chaos and confusion even in the world’s most developed countries. International travels were cancelled, schooling was stopped – everything was at a standstill. No amount of preparation and advanced health care system could have geared up the world for COVID-19.

Immediately, the Philippine government buckled down to work to mitigate the effects of the virus. The Presidential Communications Operations Office (PCOO) mobilized its information and communication system and PTV, as its television broadcast component became the face and voice of government in the fight against the disease. Through its main and provincial stations and social media accounts, PTV provided unadulterated news to the anxious and fearful public.

While major parts of the country were placed in Enhanced Community Quarantine, the men and women of PTV braved the situation to deliver news as it happens, where it happens.

In this time of desperation, PTV is the voice of calm and truth. It is the source of accurate public information. This is and will always be the Network’s commitment.

CORPORATE GOVERNANCE: **THE PTNI BOARD OF DIRECTORS**

After a long wait, His Excellency President Rodrigo Roa Duterte finally filled the last seat in the PTNI Board of Directors with his designation of well-respected broadcast media practitioner, Ms. Katherine Chloe “Kat” Sinsuat De Castro.

Fresh from her stint as IBC 13 President and CEO, Ms. De Castro’s exceptional background in the television industry and government is an advantage that is expected to push PTV to the right direction. Well-known for her professionalism, determination, grit, and compassion in her former offices, Ms. De Castro was immediately elected Network General Manager and COO by the PTNI Board of Directors. The body also appointed the following:

- **Ms. Ma. Fe Aliño** - **Chairperson**
- **Mr. Benhur Baniqued** - **Vice Chairperson**

Prof. Julio Castillo, Jr., PhD and Ms. Julieta Claveria Lacza complete the Board of Directors.

Ms. De Castro assumed office on 16 May 2020 at the height of the Network’s support of the government’s information drive on COVID-19 virus.

OPERATIONAL HIGHLIGHTS

1) PROGRAMMING

- For the year 2020, PTV devoted a huge chunk of its airtime to programs that are in fulfillment of its mandate. News, public affairs, public service and support to Presidential and government information projects particularly those that provide accurate news and updates on the COVID-19 got the biggest chunk, or 62% of the Network's airtime.
- Because of the enhanced community quarantine, suspension of face-to-face classes in schools and universities and implementation of strict health protocols in NCR and other parts of the country, almost all award-giving bodies ceased operations. Only a handful re-entered the scene and gave away recognitions virtually. PTV was able to submit twenty-seven (27) entries out of the targeted sixty (60) and received nineteen (19) nominations from submissions in 2019.

- The Network aired the following special programs in line with the government's efforts to assist the citizenry in these times.

- Public Briefing #LagingHandaPH [Monday to Saturday - 11:00AM – 12:00NN (Original) and 3:00PM – 4:00PM (Replay) Aired beginning 16 March 2020]. The program has become the face and voice of reliable and timely news and public information on the fight against COVID-19. Announcements from government offices on matters pertaining to the pandemic are first aired in Public Briefing. Secretary Andanar and Undersecretary Rocky Ignacio make a formidable team as they seek clarifications from concerned personalities and address queries of the media and the public.

- 17 June 2020 – All Members Present

On both 20 February and 05 March 2020 meetings, the Committee invited the Programming Committee Chairperson, Ms. Maria Angela C. Gatan, to present the programming plans of the Network as it prepares for a reboot of program concepts and marketing strategy on contents. Ms. Gatan stressed the following: first, the target market or viewers of the program and, second, the branding of the Network to bring in more and appeal to various clients.

It was proposed that the Network focus on news and public information programming rather than other genres, such as entertainment, as the goal is to be the leading news provider in the country. Ms. Gatan suggested that the first step towards that goal is to provide training to the Network's news staff, anchors, reporters, and other news personnel to further tap into the potential of the people working for the Network. The committee proposed that management take advantage of the classification of the Network as a government-owned and -controlled corporation and a venue where other agencies can promote and provide news and information regarding their programs, sectors, and groups through co-productions, blocktiming, special event primers, plugs, and other media values.

Furthermore, Ms. Gatan informed the Board of the plan to revitalize and revamp the news program of PTNI to be carried out by the new Chairperson of the Committee, Network General Manager Katherine De Castro. She presented to the Board the re-launching of PTNI Programs last 17 June 2020 meeting of the committee.

The following are the key points of the program re-launching presentation:

- a) To accommodate the proposed news segments and its existing features, PTV's morning show *Bagong Pilipinas*, will have an extended timeslot of two (2) hours, from 6:00AM to 8:00AM.
- b) Every newscast will have its own identity. For instance, *Bagong Pilipinas* featuring morning news stories will be live and interactive with its audience.

- c) *Sentro Balita* news program will be revamped into a public service news program.
- d) The primetime *PTV News* will become *Ulat Bayan*.
- e) To veer away from being wrongly labeled as a government propaganda machine, PTV will feature stories on both the pro-government and opposition individuals and groups.
- f) The English newscast *PTNI News Headlines* will be given a catchier title. Program concept will focus on stories that will cater to businessmen and entrepreneurs.
- g) *Ulat Bayan Weekend* will now feature new segments highlighting Overseas Filipino Workers (OFW) and will be utilizing the Mobile Journalism which will allow people from different corners of the world to be a reporter. Said idea is an accurate representation of the Network's name "People's Television".

Personnel assignments for the above proposed revamped newscasts will depend on the employees' respective specializations and potentials. This way, productivity and creativity are maximized thereby benefitting the production of the revitalized programs.

The Committee members strongly recommended ideas for content that will spotlight Technical Education and Skills Development Authority's (TESDA) various vocational and livelihood programs. A segment on skills-building such as those about business/entrepreneurship and success stories on micro, small, and medium enterprises (MSMEs) will greatly help empower Filipinos at this critical time.

Committee Report:

To complete the rates of various production services being offered by the Network, such as production of OBB/CBB, crawlers and plugs, outside broadcast coverage, conceptualization among others, the Committee, on 26 June 2020, formulated additional fees and passed Board Resolution No. 2020-041 approving such. The rates were arrived at after taking into consideration the prevailing market situation, private organizations' rental charges and the Network's target audience.

In a subsequent meeting in November, the Operations Revenue Generating Committee proposed a revision of the entire Network Media Rates through Board Resolution No. 2020-056. This was brought about by the COVID-19 pandemic which adversely affected the economy. The television broadcast and advertising sectors were among those which were greatly impacted. The Committee also took into account the differences between government and private service rates.

The Committee also decided on the grant of discounted rates for certain establishments as such will earn substantial additional income for the Network.

Committee Report:

The Committee mostly focused on discussions on the proposed reorganization of the Network after it was decided that the table of organization approved by the GCG as contained in the 2015 Reorganization Plan will be abandoned. This ruling is contained in Board Resolution No. 2020-061 which also highlights the need to follow the steps and guidelines provided in the Governance Commission for Government Owned and Controlled Corporations (GCG) Memorandum Circular No. 2015-04. Management hired an organizational development team to handle the creation of the most suitable Table of Organization. The Network General Manager and the Board of Directors Human Resource Committee oversee the work of the team.

The organizational development team presented its output to the Committee on 25 November 2020. The Committee members suggested revisions to further improve the table of organization (T.O.) such as merging of certain positions, creation of a Human Resources Management and Development Division separate from the Administrative Division and the designation of an Internal Auditor, among others.

Over-all, the proposed T.O., as of the November 2020 meeting, has eight hundred forty-three (843) plantilla positions and can absorb the present number of contractuales and Contract of Service (COS) employees in compliance with existing directives on regularization.

The Committee instructed management to come up with a strategy or road map to slowly transition to the regularization through 2022. This will enable the Network to adjust financially and logistically when the reorganization is implemented.

A Change Management Team (CMT) whose functions are provided in the GCG guidelines on reorganization was created and put into action. The same GCG guidelines contain the roles and functions of parties who will be involved in the reorganization process.

In its meeting during the latter part of 2020, the Committee was updated that six (6) out of the thirteen (13) required steps and documentation to apply for reorganization have been accomplished. The completion of the more difficult steps will require the assistance of organizational development experts from the Development Academy of the Philippines.

Target date of completion of the requirements is early 2021.

Committee Report:

In early 2020 the People’s Television Employee Association (PTEA) submitted a letter of intent to the Board of Directors to negotiate a new Collective Negotiation Agreement (CNA). The PTEA deemed that the conditions under the last CNA may not be applicable anymore in the current times considering the sudden outbreak of COVID-19. It prompted the Committee to call for a meeting to discuss the proposal of PTEA. After its evaluation, the Board forwarded the proposal to the Office of the Government Corporate Counsel (OGCC) for a review of the legality of the CNA’s proposed conditions. The OGCC immediately reviewed and provided its comment.

In view of the reviews and comments provided by the OGCC, the Committee created the Operations Labor Management Committee through Board Resolution No. 2020-046 to handle negotiations with PTEA. The committee includes Board Labor Management Committee Chairperson Baniqued, Technical Assistant for Legal Affairs Atty. Jason Shaheer H. Salendab, and Technical Assistant for Administrative and Finance Atty. Raymond C. Sanchez.

In a subsequent meeting, Committee Chairperson Baniqued reported that he has agreed with the PTEA President on the establishment of the proposed manner of negotiation, the ground rules for the negotiation, and inclusion of only legally accepted conditions during negotiation. The Committee recommended that a member of the contractual and Contract of Service (COS) personnel be present during negotiations so that their perspective may also be considered. After all, they will benefit from the new CNA too once they are regularized.

COMMISSION ON AUDIT
Commonwealth Avenue, Quezon City, Philippines

INDEPENDENT AUDITOR'S REPORT

THE BOARD OF DIRECTORS

People's Television Network, Inc.
Broadcast Complex, Visayas Avenue
Diliman, Quezon City

Report on the Audit of the Financial Statements

Qualified Opinion

We have audited the financial statements of the **People's Television Network, Inc. (PTNI)**, which comprise the statements of financial position as at December 31, 2020 and 2019, and the statements of financial performance, statements of changes in net assets/equity, and statements of cash flows for the years then ended, statement of comparison of budget and actual amounts for the year ended December 31, 2020, and notes to financial statements, including a summary of significant accounting policies.

In our opinion, except for the effects and possible effects of the matters described in the Bases for Qualified Opinion section of our report, the accompanying financial statements present fairly, in all material respects, the financial position of the PTNI as at December 31, 2020 and 2019, and its financial performance and its cash flows for the years then ended in accordance with International Public Sector Accounting Standards (IPSASs).

Bases for Qualified Opinion

The faithful representation in the financial statements of the balance of the Cash and Cash Equivalents account of P301.232 million as of December 31, 2020 was not established due to discrepancies totaling P30.926 million (in absolute amount) in the Cash in Bank accounts between the balances per books and as confirmed by the depository banks, mainly because five (5) closed bank accounts in absolute amount totaling P20.828 million are still recorded in the books, contrary to the Conceptual Framework for General Purpose Financial Reporting by Public Sector Entities and Paragraph 27 of IPSAS 1.

Also, the faithful representation in the financial statements of the balance of the Property, Plant and Equipment (PPE) account with carrying amount of P2.284 billion as of December 31, 2020 was not established due to non-conduct of physical count and no alternative audit procedure could be made to ascertain the existence of the properties due to inadequate maintenance of PPE Ledger Cards and Property Cards and non-completion of physical count of PPE in CY 2019, which disclosed total discrepancy of

P579.861 million between the Accounting records and Report on the Physical Count of PPE.

Likewise, the over-provision of depreciation for PPE-Office Equipment sub-account in prior and current years totaling P20.305 million resulted in the overstatement of Depreciation Expense (for CY 2020) and Accumulated Depreciation in the amounts of P2.050 million and P20.305 million, respectively, and understated the PPE-Office Equipment sub-account and Accumulated Surplus/Deficit account by P20.305 million and P18.255 million, respectively. Moreover, the non-derecognition of various unserviceable PPE items costing P4.968 million due to non-disposal thereof resulted in the overstatement of the PPE account in the same amount, contrary to Paragraph 82 of IPSAS 17.

We were not able to perform alternative audit procedures to determine if any adjustments to the Cash in Bank and PPE accounts are necessary due to the status of records of the PTNI's Finance and Administrative Divisions.

We conducted our audits in accordance with International Standards of Supreme Audit Institutions (ISSAIs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the PTNI in accordance with the Revised Code of Conduct and Ethical Standards for the Commission on Audit Officials and Employees (Code of Ethics) together with the ethical requirements that are relevant to our audit of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to Note 8 to financial statements disclosing, that the PTNI received various technical equipment amounting to approximately US\$4 million from the Ministry of Internal Affairs and Communications of Japan in 2010 as part of the latter's objective to promote Japanese Digital Terrestrial Broadcasting standards in the Philippines. These remained unrecorded in the books pending completion of required documents. Our opinion is not modified in respect of this matter.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IPSASs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the PTNI's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the PTNI or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the PTNI's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISSAI's will always detect a material misstatement when it exists. Misstatement can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISSAI's we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the PTNI's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on PTNI's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the PTNI to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and the significant audit findings, including any significant deficiencies in the internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information for the year ended December 31, 2020, required by the Bureau of Internal Revenue as disclosed in Note 28 to the financial statements is presented for purposes of additional analysis and is not a required part of the basic financial statements prepared in accordance with IPSASs. Such supplementary information is the responsibility of management.
